

1ST BRAZILIAN COLLOQUIUM ON POLITICAL ECONOMY OF THE WORLD-SYSTEMS

09th and 10th July 2007
Florianópolis – SC – Brasil

The 1st *Brazilian Colloquium on Political Economy of the World-Systems* has the aim of developing and spreading in Brazil academic researches on topics that are relevant to World-Systems Analysis, especially those related to Latin America. For that purpose, international conferences, presentations of scientific researches and mini-courses will take place during the meeting.

Scientific articles that address social, political, economic and cultural processes at any historical time are very welcome, since that they have the Political Economy of the World-Systems (PEWS) as their theoretical framework. The articles may be theoretical, applied or critical in relation to PEWS.

Promotion: Research Group of Political Economy of the World-Systems (Federal University of Santa Catarina - UFSC)

Accomplishment: Department of Economic Sciences of the Federal University of Santa Catarina

Date: 09th and 10th July of 2007
